

AUSTRALIAN ENERGY STORAGE COUNCIL MEMBERSHIP

The **Australian Energy Storage Council** seeks to advance the uptake and development of energy storage solutions in Australia.

The **Australian Energy Storage Council** is a national member based not-for-profit organisation and is governed by a volunteer board. We are funded by membership, industry events and training activities.

The **Australian Energy Storage Council** represents companies including technology manufacturers, equipment providers, project developers, consultants, utilities and other energy industry leaders.

The **Australian Energy Storage Council** provides an independent forum comprising representatives of the energy storage industry for networking and information sharing. We connect local and global industry partners in this growing industry.

Members benefit from our policy and advocacy activities, news updates, industry events and training opportunities. Members have the opportunity to directly engage with other industry participants and have a voice in deciding the future of this emerging industry.
